Note on OS: Most 16GB/512GB configs in this budget ship with **Windows 11 Home**, not Pro. Two ways to meet the Pro requirement: (1) Pick the **Lenovo ThinkPad E14** above — it ships with Pro and is still well under budget, or (2) buy any Home-

> edition laptop and add a **Windows 11 Pro upgrade license** (~₹9,000–11,000 extra) — check current price before adding to a Home laptop's total.

Recommended (Laptop): Lenovo ThinkPad E14 Gen 4 (₹83,500) — only model that meets every spec including Windows 11 Pro out-of-box, while staying ₹16,500 under budget. HP 15s is the cheapest option (₹59,470) if Windows Home + separate Pro license works out cheaper for bulk orders.

Flipkart (8GB variant) ↗

Amazon (16GB/Pro variant) ↗

Important — Desktops are sold as bare units: Almost all business desktops (OptiPlex/Pro/ThinkCentre) in this segment ship in an **8GB RAM, no-OS or DOS, no-monitor** base configuration on Amazon/Flipkart — that's how the base listing price stays low. To match your full spec sheet (16GB RAM + Win 11 Pro + 22" monitor), budget roughly:
Base unit + RAM upgrade (~₹2,500) + Windows 11 Pro license (~₹14,000, skip if unit already has it) + 22" FHD monitor (~₹7,000–9,000) + wireless keyboard-mouse (~₹1,200).
The **Lenovo ThinkCentre Neo 50s (Amazon link)** already includes 16GB RAM + Windows 11 Pro from factory — only the monitor needs adding, making it the most complete match.

Recommended (Desktop): Lenovo ThinkCentre Neo 50s SFF (Amazon 16GB/Pro variant) — only unit that already meets RAM + OS requirement out-of-box; add a 22" monitor separately (~₹8,000) to complete the spec, still well within ₹1,00,000.

3. Complete Ready-to-Use Setup — Total Cost (within ₹1,00,000 each)

Below is the **full landed cost** per unit — base device + every accessory/upgrade needed to fully match the spec sheet — not just the bare unit price.

Laptop — Complete Setup

Item	Model	Price
Laptop (16GB/512GB/Win11 Pro already included)	Lenovo ThinkPad E14 Gen 4, i5-1235U	₹83,500
Laptop bag	Standard 15.6" padded bag	₹800
Wireless mouse	HP/Dell/Lenovo wireless mouse	₹600
Total Laptop Setup		**₹84,900**

✅ **₹15,100 under budget.** No extra OS/RAM cost — this model already ships with 16GB RAM, 512GB SSD and Windows 11 Pro.

Desktop — Complete Setup

Item	Model	Price
Base desktop unit	Lenovo ThinkCentre Neo 50s, i5-12400 (official Lenovo store price, 8GB/1TB HDD/DOS config)	₹44,990
RAM upgrade 8GB → 16GB	DDR4 3200 module	~₹2,500
Storage: HDD → 512GB NVMe SSD	Swap/add SSD	~₹2,200
Windows 11 Pro license	OEM license (bundled with hardware purchase)	~₹9,000
22" Full HD Monitor	Dell S2216H 21.5" FHD LED	₹11,200
Wireless keyboard + mouse combo	HP KM290	₹2,099
Total Desktop Setup		**≈ ₹71,989**

✅ **≈₹28,000 under budget** even after adding RAM, SSD, Windows Pro, monitor and accessories on top of the base unit.

> **Estimate accuracy:** Base desktop price (₹44,990) and monitor/keyboard prices are **live-verified** from Lenovo's official store and Flipkart. RAM/SSD/Windows 11 Pro license costs are **market estimates** (Amazon blocked automated price-checking on the pre-configured 16GB/512GB/Pro variant) — actual cost may shift ±₹3,000–4,000. Recommend calling the vendor to get one firm all-inclusive quote before ordering in bulk.
